SANMITRA TRUST

1. Digital Literacy: Computer Labs at Schools and Colleges

As a part of the Digital Literacy, we've been working for the last decade, focusing on the underprivileged section in setting up Computer labs and extending computer education at government and aided schools and colleges.

Proud Moments:

1. New Computer lab was set up at **Govt PU College, Mutthanallur Cross, Anekal taluk, Bangalore**. College offers Commerce and Arts stream catering to **100** students from surrounding area.

With the support from **BluePrism Pvt Ltd**. Computer lab was set up with 20 seating capacity.

www.sanmitratruster.org

Activity Report
April 2022 - March 2023

SANMITRA TRUST

2. New Computer Lab was set up at **Sardar Vallabhabai Patel High School** covering 8th to 10th Grade students catering to **270** students.

With the support extended from **Applied Material and BluePrism Pvt Ltd**, we could set up a Computer lab with seating of 25 laptops.

3. We are happy to be back in action, as we restarted our Digital literacy classes at **Renuka High School** for 8th to 10th catering to **283** students.

Thanks to our Donors and our Digital Literacy Teachers Mamatha covering Renuka High School and Govt PU College and Sindhu covering SVP High School and SVP First Grade Degree College.

Activity Report April 2022 - March 2023

SANMITRA TRUST

Digital Literacy Annual Contest:

PPT's are fun, they are easy and once the kids start enjoying, the world of computers and technology does not look difficult to them as they start setting their dreams and spread their wings! The contest does 3 things to our kids- Learn Computers, Speak in English, Instill Confidence to present to an audience.

Interested students are formed in to groups and they have chosen one of the topics listed below. Each student will be evaluated based on their presentation, topic coverage and slide preparation. Every participant will receive a participation certification and a trophy will be given for 1st, 2nd and 3rd place winners. The contest will enable students on group activity, team work leadership capabilities, Presentation's skills and improves their language capability.

The Contest topics ranging from Digital India, Traffic Condition in Bangalore, My first travel in 'Namma Metro', Organic Farming, Power of Media, etc. provide them the opportunity to research, get creative on the PowerPoint tools and many a times they surprise us with things that we don't know. Sometimes a little different, sometimes a tad confident and sometimes a sense of pride as they display their skills. And we love seeing their energy, their curiosity and their wonder as they rise and shine!

Annual Participants and Winners List:

School/College	Participants	First	Second	Third
Renuka High School	55	9	9	9
Govt PU	14	7	6	6
SVP High School	36	26	24	
SVP Degree	30	18	22

SANMITRA TRUST

2. Scholarships for Girls – Supporting Higher Education

All the girls in the Govt schools come from an extremely poor background and a scholarship goes a long way to gain commitment from the family to support them. These girls need just a little bit of our support to help their dreams shape into reality. Our aim is to encourage girls to pursue higher education and not fall into the pressures to start contributing to the household income by earning from an early job.

We extend our warm greetings to the residents of Ranka Heights, an apartment in Bangalore, for their generous support by participating in **Annual Charity Run**. We are glad to say that this is our 8th year in to this activity and we could support the girls from different streams of graduation. The girls were guided through personal career counseling, and it has been heartening to see the progress of some of these girls.

We also encouraged and supported girls who chose to continue their **post-graduation and placement assistance** was provided to graduates who wished to get in to the workforce.

With support extended from **Blueprism Pvt Ltd**, we extended Scholarship to students who secured high scores in their 10th and 12th Standard.

3. Special Classes for Subjects:

Maths and Science are the subjects that every person finds it difficult to study, but we all know that bit of focus makes it easy to understand and one can score better with more practice.

An initiative started in the academic year 2016-2017 at **Renuka High School, Kaikondarahalli, Bangalore**, a government undertaken school. The activity aims at providing special classes for a small group of 8 to 10 girls, who are good in their academics, and are keen towards pursuing their education in Science stream. These girls come from an economically weaker section and cannot afford to take special tuitions either at private tutorials nor home tuitions.

We identified the teaching faculty from the same institution to ensure there is no change in approach to the studies for the selected students. The classes are handled 1 hour 30 minutes in the morning and evening, typically before and after school hours, by ensuring the students are attending their regular classes as well. Parents of the selected students are counselled in seeking support at home so that the girls are allowed for their extra classes and efforts.

We appreciate the School Principal and Teaching Faculty for their continued effort in making the students reach their highest potential.

School result 84%. 7 girls from our special tuition secured distinction Gowthami stood first with 94%. Proud moment to the school as a record break with distinction numbers.

4. Uniform Drive:

As we know, every year, the school uniforms and shoes get wasted with hardly any avenue to get them utilized or recycled. However, there are a lot of tribal and remote schools (bridge schools/ tent schools) which have children coming in from extremely poor background and not supported by the Government. We help collecting the uniform & shoes from the Private Schools, which are further distributed to the underprivileged children.

The uniforms and shoes will be distributed through **RK Foundation**, a renowned organization for charitable action for clothes donation "**VASTHRVITHARANE**" to schools in and around Bangalore and interior rural areas of Karnataka.

This was **initiated in 2016** with NPS Koramangala and has now scaled to **16 schools** in Bengaluru. We are extremely grateful to the wonderful support that we receive from Kumarans Schools, The Foundation School, Gopalan International, Shishu Griha, Whitefield Global School, Bethany, Greenwood High, NPS Indiranagar, NPS Rajajinagar, Inventure , Amaatra, Euro School, Deens Academy, VIBGYOR and others.

From **2017**, we also did a donation drive in the apartments and received an overwhelming response. **10 apartments** - Mantri, Embassy, Ranka Heights, Embassy Tranquil, Tata Sherwood, Elan and others.

What started as a collection of 500 uniforms from one school in Year 1 in 2016, **now runs as an annual collection of 15,000- 20,000 pieces of uniform annually.**

Till now, under this initiative, we've donated about **95,000 uniforms & 35,000 shoes to more than 40 schools in Karnataka**— Govt School Clusters in Thoralakki, Mudgal, Kolar, Aalahalli, DN Dodli, Rao Gudlu, Hospet, Gidadapaalya, Shishu Mandir, etc.

Details of our projects are available on **My Little Bit** <https://mylittlebit.in/uniform-and-shoes-donation/> & **R K Foundation** <https://rkfoundation.org/vastra-achievements-2022-23.html>

Every year **Uniform Donation Drive** activity is initiated in the month of February for that academic year and collection closes by June. RK Foundation will distribute the Uniforms and school related items to rural and tribal schools by the start of next academic year.

5. Dreams Unlimited - Girls in the Workforce:

Suspended due to Pandemic and No Sponsorship. Program started in 2019 extended to September 2022 due to extensions in the exams.

6. Science expo 2023: National Science Day :

Greetings for a wonderful New Year 2023!

Our initiative "Curious Sparks" under Internship opportunity "Develop life skills needed for the 21st century via science projects, **Divya Gopal and Raanan** raised around **Rs 2Lakhs** to create the spirit of curiosity for children towards science as a way to pursue career in STEM in future.

As we understand, a practical way of teaching Science is always long lasting and simplifies the learning process. As a first step, we are pleased to announce that we donated Scientific Equipment to **10 Government school science labs**, so that the children can experiment and learn better. The lab equipment was procured based on the request list from the school.

As a next step, 60 students from 2 schools were taken to EXPERIENT SCIENCE LABS, 155, KODATHI GATE, SARJAPUR ROAD, BANGALORE which provided students with an interesting experience at the lab to experiment on their own.

As a next step, we also conducted contests in schools for students to showcase their experiments in science as a run up to the **National Science Day** on Feb 28th, 2023. On the National Science Day, we had our grand celebration to award the winners of the contest. The Science Teachers from all the 10 schools were there and the top experiments from the school were on display. The judges went around and it was heartening to see alarm bells ringing, volcanos erupting, rotors propelling the rocket launch. It was a happy culmination with rewards to the students, teachers, principal and the schools for making 'Science the DNA of every student'.

It was indeed a privilege that we could donate lab equipment to the following schools and we extend our heartfelt thanks to Science teachers and respective Head Maters' in preparing the students to participate in the Science Expo 2023 and making the event a grand success.

Special thanks to Science Teacher Rajanikanth for coordinating in selection of the listed schools, getting the required list for the science lab at each school and also during the procurement. We extend our thanks to the Science teacher Gajanan Nayak and staff of Vishweshwaraya school for supporting us in providing the venue and coordinating the event in their school premises.
